

Sweet-Online Billing

Sweet-Online Billing, accessed via the internet, provides unique access to the industry-leading EMS billing software program at a fraction of the price. Would your service benefit from a simple and affordable EMS billing software program that contains important compliance tracking and collection functionality, without the initial software and hardware investment? Your Sweet-Online Billing membership would include the following features and perks.

Key Benefits:

- Maintain control over your cash flow. No need to rely on an outside billing service
- Preconfigured billing tasks speed implementation time, and decrease training requirements
- Simplify common reporting tasks for monitoring accounts receivables with pre-configured reports
- Access Sweet-Online from any computer with broadband internet access
- No backup or data security worries
- Catch data entry mistakes before submitting electronic claims with Automated Error Trapping
- Prints virtually all standard billing forms
- Affordable monthly fees for services is easily absorbed as part of the Operational Budget, rather than the capital investment that often accompany purchase of professional billing programs
- Tools for HIPAA compliance are at your fingertips through your access to our EMS billing software program, without a large, initial cash outlay
- Simple and straightforward design makes the internet-based billing process easy to use for either full-time or part-time employees
- Reduced time spent training with the anticipated learning curve cut by approximately half as compared to most standard billing programs

Sweet-Online Subscription Perks:

- Full benefits of Ortivus renowned technical support and educational services
- Comprehensive Financial Reports: can be run on a real-time basis, enabling analysis of a service's financial position
- Eliminate Expensive Hardware Maintenance: Window's technology demands significant computing horsepower, which is necessary for most standard industry EMS billing programs - Sweet-Online members need only maintain a computer with internet access, a compatible printer and one active e-mail account
- Expertise: maximize Ortivus' EMS billing expertise - having pioneered EMS billing software, Sweet-Billing is the culmination of years of invaluable billing experience stemming from hundreds of EMS Providers

Sweet-Online Logistics

- Sweet-Online Members access the Sweet-Online Billing program via the internet
- Ortivus submits all Medicare Electronic Claims, a process that includes an 'Automated Error Trapping' system that catches most mistakes before claims are transmitted
